

ERA REGISTRY FELLOWSHIPS

I. Purpose.

These Fellowships are designed to enable young people living in countries part of the [ERA geographical area](#) (Europe, countries bordering Europe and the Mediterranean Sea) who are interested to train in clinical epidemiology at the ERA Registry in Amsterdam as well as to support Registry activities/initiatives linked to the Association (e.g. ERA Registry and ESPN/ERA Registry).

Any exception to any of the rules of this programme must be evaluated by the ERA Registry Managing Director.

II. Deadline(s).

The deadline(s) are decided by the ERA Council; once this is done, they will appear in the appropriate section of the ERA website.

III. How to apply.

Applications have to be submitted by means of a specific application form available in the 'My Member Benefits' section of the [My ERA platform](#).

IV. Institutions/where to do the ERA registry fellowship.

Eligible fellows will train at the Amsterdam University Medical Centre, location AMC, Amsterdam – The Netherlands.

V. Eligibility.

Only ERA Full members who are 40 or younger at the time of submission can apply. Extension of the age limit can be considered if the applicant's career has been interrupted due to childcare.

VI. Duration.

The ERA Registry Fellowships are Ultrashort Fellowships and have a length of minimum 4 weeks (28 days) to a maximum of 6 weeks (42 days).

VII. Selection of the applications.

The applications will be scored and selected by the ERA Registry Committee.

The Registry will then send the outcome of the selection to the ERA HQ that will inform the ERA Council. After the Council's approval/final decision, the ERA HQ will inform all applicants about the results.

VIII. Factors normally considered in the selection of applicants.

1. Age of the applicant;
2. Prior expertise of the applicant/ published papers;
3. How the project fits into the applicant's career;
4. Feasibility of the project by the applicant and within the planned time frame;
5. Continuation of the Study related to the project once the fellow return to his/her home institute.

IX. Start of fellowship.

The fellowship should start without any further significant delay after reception of approval. The fellowship time period has to be agreed with the ERA Registry.

X. Payment.

The amounts given to the fellows for this type of initiative are based on the annual budget established by the ERA Registry and approved by the ERA Council. The ERA Registry will be in charge of following the fellowship and will confirm if all is on track and thus if the instalments of the payments can be made to the fellow by the ERA HQ. Normally 75% of the entire amount due will be paid 10 days before the start of the fellowship, while the remaining 25% will be paid after the end of the fellowship, provided that the End of Fellowship report is approved by the ERA Registry.

In the event of early termination of the Fellowship, any extra amount already paid will have to be repaid back to the ERA.

XI. End of fellowship report.

At the end of the fellowship, the fellows are asked to provide the ERA Registry with a report of the activity done at the receiving institution. The report must be signed by the Supervisor.

So that the End of Fellowship Report can be approved, and thus the last amount of the fellowship paid, any eventual reprint of publications (preferably in ERA's journals) done during the fellowship could be asked to be submitted with the report itself.

The [End Report Form](#) may include diagrams, charts or illustrations to enhance the results

The report and the eventual publications must be sent, within one month after the end of the fellowship, to the ERA Registry for evaluation/approval/rejection.

Last up-date: October 2021
