

EURECA-m CME course 2022

September 09-10, 2022, Hotel City, Maribor, Slovenia

Friday, 09 September 2022: Starting in the afternoon (from 14:30 to 18:30)

Saturday, 10 September 2022: Starting in the morning (from 8:45 to 13.30) with lunch and re-start in the afternoon (from 14:30 to 16:30)

PROGRAMME

FRIDAY, September 9, 2022

14:30-14:50 Participants' registration

14:50-15:00 Introduction and rationale of the meeting. How working groups are expected to perform: deep insight on specific topics or educational role or both? **Francesca Mallamaci (Italy)**

1st Session (15:00-16:30)

HOT TOPICS IN CKD

Moderators: Alberto Ortiz (Spain), Patrick Mark (UK)

15:00-15:20 Sudden cardiac death in CKD patients– what do we mean by this? **Charles J. Ferro (UK)**

15:20-15:40 Dyslipidaemia in CKD – emerging treatments: an affordable improvement or just a privilege for few? **José Manuel Valdivielso (Spain)**

15:40-16:00 Discussion

16:00-16:30 Lecture

Artificial Intelligence in Cardiovascular and Renal Medicine. **Carmine Zoccali (Italy)**

16:30-17:00 Coffee break

2nd Session (17:00-18:30)

OLD AND NEW CONCEPTS ON HYPERTENSION IN CKD

Moderators: Charles J. Ferro (UK), Robert Ekart (Slovenia)

17:00-17:20 Hypertension as a risk factor on CKD progression. **Radovan Hojs (Slovenia)**

17:20-17:40 Hypertension in dialysis: Is there anything new? How to make diagnosis and which targets (if any). **Pantelis Sarafidis (Greece)**

17:40-18:00 Hypertension in kidney transplant patients-where we stand today? **Olga Balafa (Greece)**

18:00-18:30 Discussion

SATURDAY, September 10, 2022

3rd Session (08:45-9:45)

VOLUME CONTROL IN DIALYSIS PATIENTS: AN OLD STILL »BURNING« DILEMMA?

Moderators: Evangelia Ntounousi (Greece), Roberto Minutolo (Italy)

8:45-9:05 Evolving concepts on volume control in haemodialysis: Bioimpedentiometry and B-Lines are complementary each other or.... **Sebastjan Bevc (Slovenia)**

9:05-9:25 Fluid Volume overload and vascular stiffness in CKD patients. **Robert Ekart (Slovenia)**

9:25-9:45 Discussion

4th Session (9:45-12:00)

METHODOLOGICAL ISSUES IN CKD PROGRESSION

Moderators: Carmine Zoccali (Italy), Marc G. Vervloet (Netherlands)

9:45-10:05 Application of prognostic models in Nephrology. **Giovanni Tripepi (Italy)**

10:05-10:25 Which eGFR method is the best for cardiovascular risk prediction in CKD patients? **Patrick Mark (UK)**

10:25-10:45 Prediction of CKD progression among older patients. **Roberto Minutolo (Italy)**

10:45-11:15 Discussion

11:15-11:30 Coffee Break

11:30 -12:00 Chronodisruption in CKD. **Alberto Ortiz (Spain)**

5th Session (12:00-13:30)

NEW INSIGHTS INTO THERAPY IN NEPHROLOGY

Moderators: José Manuel Valdivielso (Spain), Jolanta Malyszko (Poland)

12:00-12:20 Chronic kidney disease-mineral and bone disorder: changing insights from changing parameters? **Marc G. Vervloet (Netherlands)**

12:20-12:40 Acute and chronic hyperkalemia - latest KDIGO controversy conference. **Jolanta Malyszko (Poland)**

12:40-13:00 The HIF factor and the cardiovascular system: possible strengths and weakness of HIF stabilizers. **Lucia Del Vecchio (Italy)**

13:00-13:30 Discussion

13:30-14:30 Lunch

6th Session (14:30-15:30)

HEART, VESSELS IN CKD

Moderators: Evangelia Ntounousi (Greece), Charles J. Ferro (UK)

14:30-14.50 Structural and functional heterogeneity of vascular system and pressure wave propagation and microvascular function. **Gerard London (France)**

14:50-15:10 New insights on cardiovascular disease and calcification in CKD patients. **Ziad Massy (France)**

15:10-15:30 Discussion

"Meet the experts" Session 15:30 - 17:00

MEET THE EXPERTS - TEACHING SESSION FOR YOUNG SPECIALISTS IN NEPHROLOGY

Moderators: Sebastjan Bevc (Slovenia), Beatriz Fernandez Fernandez (Spain)

15:30-15:50 The Lust 2 trial: where are we now? **Claudia Torino (Italy)**

16:00-16:30 Mechanisms of renal function deterioration in heart failure. **Evangelia Ntounousi (Greece)**

Notes on renal artery stenosis. **Beatriz Fernandez Fernandez (Spain)**

16:30-17.00 Discussion
