

SCIENTIFIC PROGRAM

Measuring and Estimating Glomerular Filtration Rate in 2013

Thursday September 19

1:30 pm Welcome and introduction of the seminar by Christophe Mariat and Pierre Delanaye

Session 1: Methodology 1:30 pm – 3:30 pm
Chairman: Pierre Delanaye (Liège, Belgium), Christophe Mariat (Saint-Etienne, France)

- Measuring GFR in 2013: why, which method, which patients? Martin Flamant, Paris, France
- *Pro-Con* debate: The CKD-EPI equation should replace the MDRD study equation to estimate GFR.
Pro: Stein Hallan, Trondheim, Norway
Con: Pierre Delanaye, Liège, Belgium
- Cystatin C and the new GFR biomarkers. Christine White, Kingston, Canada

Coffee break 3:30 pm - 4:00 pm

Session 2: Epidemiology and Clinical Chemistry 4:00 pm – 5:30 pm
Chairman: Etienne Cavalier (Liège, Belgium), Christophe Mariat (Saint-Etienne, France)

- Estimating GFR: the role of the laboratory. Joris Delanghe, Ghent, Belgium.
- Estimating GFR and the CKD epidemiology. Jan van den Brand, Nijmegen, The Netherlands
- Estimating GFR: the role in developing countries. Meguid El-Nahas, Sheffield, UK

Break 5:30 pm – 5:45 pm

Session 3: Methodological and Statistical tools 5:45 pm – 6:45 pm
Chairman: Rossini Botev (Hawaii, USA), Meguid El-Nahas (Sheffield, UK)

- GFR slopes: how to evaluate the CKD progression? Olivier Moranne, Nice, France
- Estimating GFR: statistical traps and pitfalls. Hans Pottel, Kortrijk, Belgium

Walking Dinner

Friday September 20

Session 4: Estimating GFR in specific populations 8:30 am – 10:30 am

Chairman: Pierre Delanaye (Liège, Belgium), Christophe Mariat (Saint-Etienne, France)

- Estimating GFR in renal transplantation. Christophe Mariat, Saint-Etienne, France
- Estimating GFR in the elderly. Natalie Ebert, Berlin, Germany
- Estimating GFR in ICU. Wim Van Biesen, Ghent, Belgium
- Estimating GFR in the children. Justine Bacchetta, Lyon, France

Coffee break 10:30 am - 11:00 am

Session 5: GFR as a mortality risk factor 11:00 am – 1:30 pm

Chairman: Wim Van Biesen (Ghent, Belgium), Jean-Jacques Boffa (Paris, France)

- Is eGFR a suitable test to assess progression of CKD? Arif Khwaja, Sheffield, UK
- *Pro-Con* debate: eGFR and Albuminuria: Useful Predictors of Death ?
Pro: Stein Hallan, Trondheim, Norway
Con: Meguid El-Nahas, Sheffield, UK
- Beyond GFR estimation: Is Cystatin C more than a GFR biomarker? Christine White, Kingston, Canada
- Meet the expert session: Speed dating with GFR. Meguid El-Nahas, Stein Hallan, Christine White, Pierre Delanaye, Christophe Mariat, Richard Glassock

1:30 pm Conclusion of the seminar by Richard J. Glassock (Los Angeles, USA)

Organizing committee:

Pierre Delanaye, University of Liège, Liège, Belgium
