

CME course, Lund, Sweden, September 27-28, 2012.

Morbidity and functional capacity in CKD: exercise training in theory and in practice

Department of Nephrology, Lund University and Skåne University Hospital, Lund.

General information

Lund is a medieval university town dominated by the University, the Hospital and the Cathedral. It is the town where Nils Alwall invented hemodialysis and ultrafiltration and developed these products in cooperation with Gambro, thus starting large-scale production of hemodialysis machines and filters enabling maintenance hemodialysis treatment. He founded one of the first departments of Nephrology in the world. To learn more about Lund follow this link: <http://www.lund.se/en/>

Venue

Segefalksalen, Biomedical Centre, Sölvegatan 21, Lund (by Skåne University Hospital).

Transportation

The closest international airport is Kastrup, Copenhagen, Denmark . Take the train from Kastrup to Lund Central station, which takes about 45 minutes. The University Hospital and Biomedical Centre is about 15 minutes walk from the station, but the no 1 bus goes from the station to Sölvegatan 21.

Accommodation

Lund has many hotels with a wide price range. For information about hotels and booking follow this link: <http://www.lund.se/en/>

Warmly welcome

Naomi Clyne, MD, PhD

Chairperson of EURORECKD and local coordinator
